ARRIVE AND FEEL AT HOME

Comfort begins in the entrance area

Clarity, structure and atmosphere – the entrance area is the architectural prelude to every home. It organises, welcomes and forms the transition between outside and inside. TEAM 7 shows how this space can become part of a holistic living concept through the interplay of natural wood, craftsmanship and bespoke planning: the clear design language of natural wood furniture runs like a common thread through the entire interior design.

Natural materials for timeless elegance

TEAM 7 relies on the expressiveness of natural wood. Solid wood from sustainable sources brings warmth, character and durability to the hallway. Oiled surfaces emphasise the natural grain, are pleasant to the touch and develop an individual beauty over the years that brings every room to life. Wood types such as oak or walnut give the entrance area an elegant look. Materials such as leather or coloured glass add subtle accents and expand the scope for personal design. The result is an aesthetic full of naturalness and timeless elegance.

Tailor-made room concepts

With the **cubus**, **cubus pure** and **filigno** ranges, TEAM 7 offers flexible planning options that can be adapted to any room layout with millimetre precision. **cubus** is characterised by its modular clarity, while **filigno** stands out thanks to its slim material thickness. All ranges offer versatile solutions that combine practical storage space with formal beauty, lending even small hallways a sense of spaciousness.

Solitary furniture sets accents

In addition, sophisticated individual pieces of furniture add accents to the hallway. The elegant hood coat rack combines visual lightness with practical functionality and creates space for jackets, bags and accessories, while the haiku panel in various designs structures the wall surface and combines hooks, mirrors and shelves. Whether as striking solitary pieces with a distinctive character or as additions to tailor-made designs, they act as special highlights and create a specific atmosphere.

Consistent design for the entire home

TEAM 7 considers the entrance area to be a crucial part of a harmonious interior design. The clear design language of the natural wood furniture flows seamlessly through all living areas – from the hallway to the kitchen and dining room to the living room and bedroom. This creates a holistic design concept that visually connects rooms and gives the home a calm, natural aesthetic.
