Floating to Sleep – The riletto Bed

The riletto bed by TEAM 7 guarantees perfect relaxation. Its recessed slides make the bedstead seem to float in the room while its fine proportions provide it with a stylish optical lightness, despite its size. The riletto bed easily adapts to individual customer requirements. It is flexibly extensible with a padded or wooden headboard as well as matching consoles and nightstands that grant extra storage and surface areas. Select natural wood can be combined with leather in diverse colour variants on the headboard as well as the sides. Furthermore, the metal-free craftsmanship uses only wood and leather, thus making for healthy comfort and excellent stability. This creates an attractive and high-contrast mix of materials which renders the riletto bed an elegant eye-catcher, not only by night, but also during the day.
