

PRESSEMITTEILUNG

Well-designed solutions by TEAM 7

Whether you're at home, in your office or at the office when at home, one thing is clear: home office solutions should be comfortable and functional at the same time. The solid wood furniture from the Austrian manufacturer TEAM 7 meets these requirements perfectly. The eco-pioneer offers stylish and practical furniture for the home office. The furniture is made from fine solid wood and thereby blends harmoniously into the living environment. When the wood is treated only with natural oil it remains porous and breathable, thereby ensuring a comfortable room climate.

A classic from the desk range is the atelier architect desk (see photo), which allows you to work ergonomically regardless of your height thanks to its height-adjustability function. The sol writing desk, TEAM 7's newest creation, also combines practicality with finesse: a power socket with a USB port and small utensil boxes ensure contemporary functionality and simplify work. The cubus writing desk is also particularly clever as it looks like a classic chest of drawers when not in use and only reveals its hidden capacities when they are required. The computer screen rises up at the press of a button, and the base unit has plenty of space for a printer, PC, and paper. The cubus shelf system also offers plenty of storage space and can be perfectly tailored to suit your requirements through infinite possible combinations.
