

# *culus, culbus pure and filigno home entertainment*

## acoustics

The basis for optimal acoustics is a cabinet made from pure natural wood.

## loudspeaker

Special interior partitioning offers sufficient space for all standard loudspeaker systems or centre speakers.

## cable pull flap fitting

The special pull-out fittings have a slender, elegant appearance and ensure smooth closure of the flaps. When opened, the flaps are flush with the unit base.

## room divider: optimum TV connection through rotatable support pillar

The optional TV pillar in glossy chrome or metal colours with an integrated cable duct is height-adjustable and rotates virtually 360°.

## cable management solution

The cable management system allows for well organised electric wiring hidden from sight. Access from above and a neat cable cut outs make it easy to navigate wires between units. Available in wood or glass.

### home entertainment with subwoofer | subwoofer cube

The subwoofer element is an elegant solution for storing subwoofers that would otherwise be freestanding within the room. The element is constructed in such a way that the subwoofer stands directly on the floor. This eliminates disruptive vibrations. The element can be integrated in a row of units or used as a free-standing piece.

### filigno home entertainment console

Home entertainment systems are getting ever smaller, reducing the need for the traditional storage space in wall units. The **filigno** console picks up on this trend. At just 12.4 cm in height, it is pared back to the essentials, resulting in a neat, contemporary aesthetic.

**top:** solid wood (1.2 cm), up to 320 cm continuous length possible  
**front:** solid wood, coloured glass, ceramic, loudspeaker fabric on frame  
**types of wood:** alder, beech, beech heartwood, oak, wild oak, venetian oak, cherry, walnut, wild walnut, oak white oil, wild oak white oil

### colour patterns

Wood is one of the most noble, beautiful and versatile natural products we have. Every piece of wood is unique. Differences in colour are a result of the wood's structure and place of origin. Similarly, the age of the piece of furniture will determine its colour, as natural factors in your home's environment (e.g. sunlight) can change the surface colour. When your order specifies a particular colour, we do our best to match it. But minor variations in wood, leather, fabric, glass and ceramic are inevitable. An exact colour match will never be possible.

\*wild wood versions only available on fronts and table tops
